It does not appear the code is undated to USDWS 2.0. What version is this site based on? How often will it be updated?

Here are a few things I found while going through site:

At top, here's how you know link on home page does not drop down.

<https://design.va.gov/documentation>

provide hyperlink to analytics.usa.gov to go to site.

How do you get license for Sketch?

www.sketch.com

Spacing Units paragraph (1st paragraph)

<https://design.va.gov/design/spacing-units>

Add "to" to when applied "to" margins ...

Link to Formation's [base files](#) produces 404 error.

<https://design.va.gov/documentation/designers>

Capitalize **V**eterans

<https://design.va.gov/patterns>

VA.gov

<https://design.va.gov/layout>

needs a . U.S.

<https://design.va.gov/documentation/developers>

Should help you get started

Depends greatly on your project structure

Implementing design works

Implications that designs design

In general-duplicative

some, some

You will notice that not everything in Formation follows the naming the convention ...

Components may be refactored
